

SERIBERT Srl considers the quality of its products and services, utmost Client satisfaction, health and safety in the workplace, sustainable development with respect to environmental and ethical values, all within a context of suitable profitability, to be primary objectives in each of its activities.

With these objectives in mind, Management is convinced that a Quality Management System with UNI EN ISO 9001:2015 certification is an indispensable asset in the logic of continuous improvement.

That said, **SERIBERT** Management has expressed the following founding principles of the company's quality policy:

Continuously identify and monitor the needs and expectations of clients and other interested parties in regards to the products and services offered, in order to improve the level of satisfaction.

Monitor its own internal processes in order to guarantee their improved efficiency and efficacy over time, in full compliance with environmental laws and regulations.

Manage the production process in such a way as to identify risks and prevent worker injuries, and therefore ensure the possibility to work in a suitable environment compliant with the relative legislation in force.

Develop a "company system" able to motivate workers, increasing their professionalism.

Implement a system for the identification, planning and monitoring of improvement objectives in a "Risk Based Thinking" logic, in which all company staff is involved.
